Changed the Utility Boiler indicator to match the State, which is blank. Jean Lee spoke to Marc Rivas about this facility. Marc said that the State is the owner for this type of facility so we updated source E according to how the State had it in RCRTS.

REMARKS

I'm trying to correct an data entry problem with the facility St. Louis Thermal Energy Corp. The utility boiler indicator is wrong in RCRTS. Could you review the attached codes (H, U, B, Blank) and let me know which one best describes the facility to your knowledge.
